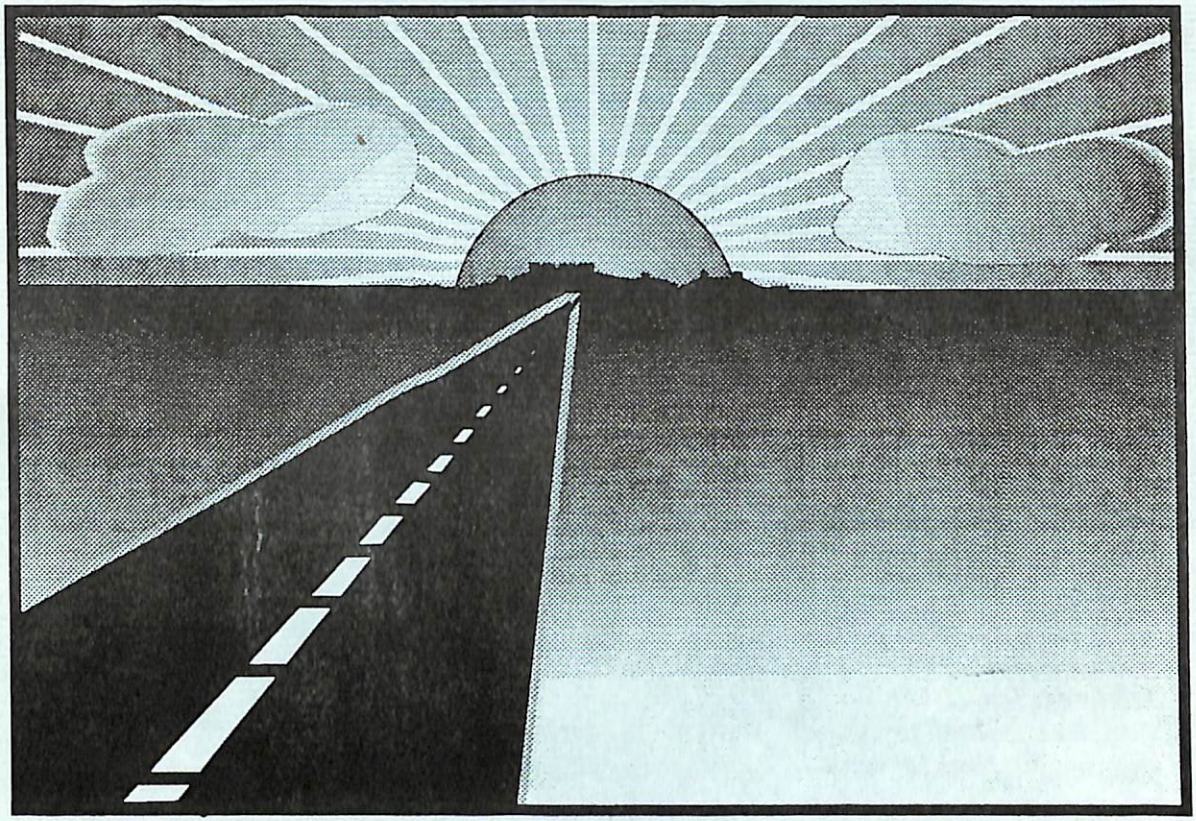
Dodge City Community College

Speakers' Bureau

2501 North 14th Avenue
Dodge City, KS 67801-2399
316- 225-1321 • In KS: 1-800-742-9519
Out-Of-State: 1-800-262-4565



Welcome

...to the 1990 Dodge City Community College Speakers' Bureau! You are invited to call the Public Relations Office at DCCC to arrange for a speaker. The phone number is (316) 225-1321, Extension 264 or 262. We will be happy to contact the speakers and send you a letter confirming the details. Let us know if you need a speaker for your meetings or classes in 1990!

Sandra Bish, DCCC Public Relations Director

Business

•*The Changing Office Environment*

Patricia Allison
Professor and Coordinator of the Secretarial Technology Program
This presentation emphasizes how technology has created a working system whereby one person can process more information than ever dreamed possible.

•*Business Planning and Marketing*

Tom Cutcliffe
Chief Fiscal Officer
A marketing plan is essential for the future success of a business and this presentation emphasizes the necessity for matching objectives with financial resources.

•*Entrepreneurship*

Harold Marconnette
Director of Center for Business and Industry
Business ownership is exciting and challenging. Successful entrepreneurs need to know sound marketing principles.

•*Computers, the Human Clone*

Jim Schroeder
Computer Science Director
A light hearted look at computers and how they changed our everyday life in layman's terms. Compares the ease of using a computer to the difficult task of using a pencil.

•*New Technology, Teaching Computers New Tricks*

Jim Schroeder
Computer Science Director
A light hearted but revealing look at how computers are adapting to people instead of people adapting to computer rules.

•*Macintosh or MS-DOS, a Fortune 1000 Report*

Jim Schroeder
Computer Science Director
A motivational speech about productivity based on a recent independent survey by Diagnostic Research Inc., that explains how Fortune 1000 MIS managers increased productivity 13% by using an Intuitive Operating System.

Career

•*Cosmetology Program Requirements*

Bev Helin
Professor of Cosmetology
State regulations concerning licensing for cosmetologists will be explained.

•*Senior Employment*

Sally Luallen
Director of Cultural Programs and Coordinator of Senior Employment
Senior citizens have many opportunities available to them in Ford County, but making them aware of this is the problem.

•*Automotive Training for Future Repair Technicians*

Lyle Schrader
Professor of Auto Mechanics
An overview of the technology and the technicians needed to help computerized vehicles on the road.

•*Manufacturing Technology*

Don Webb
Associate Professor of Manufacturing Technology
This presentation explains the career changes in overall technology including the robotics impact on the future.

•*Why Teaching?*

Paul Young
Professor of Agriculture
Young people should be encouraged to seek the profession of education; the advantages of being a teacher are many.

College Environment

•*The Value of a DCCC Education*
Bob Bartkoski
High School Counselor and DCCC Outreach Coordinator
As a counselor at Minneola High School, Bob outlines the advantages of obtaining the first two college years at a community college.

•*The Role of the Community College*
Duane Baugher
Dean of Instruction
Individuals of all ages and occupations can benefit from the many services of the community college.

•*The Adult Learning Center - What Is It?*
Nancy Blake
Instructor of ESL and GED Examiner
This presentation will outline the services of the Adult Learning Center and the needs of the community.

•*External Studies for the Non-Traditional Student*
Peggy Church
Director of Developmental Education and External Studies
Starting back to college is not a frightening experience when the adult student begins his college career by enrolling in independent study.

•*Friends Away From Home*
Joan Cox
Secretary to the Athletic Department
Community persons are being asked to be a friend to college students who live away from the home environment and are unfamiliar with Dodge City. This sponsor outlines the need of these students.

•*Truck Driver Training*
Dwight Craft
Assistant Professor of Truck Driving
Transportation safety outlines training essential for truck drivers and the requirements needed to obtain a commercial drivers license.

•*Community College Administration*
Tom Gamble
President
Dr. Gamble's presentations cover many aspects of education including the development, organization and administration of the community college and its importance to future generations of students and the community, issues of educational philosophy and finance, and interrelationships between pre-school, public school and higher education. Particular emphasis is placed on Dodge City Community College and the programs and activities it offers.

•*Cooperative Efforts between DCCC and Business*
Jerry Gee
Associate Dean of Instruction-Continuing Education
Combining the college and businesses in learning partnerships will be discussed. Current cooperative programs will be outlined together with their advantages and disadvantages.

•*The Returning Adult to the College Classroom*
Jerry Gee
Associate Dean of Instruction-Continuing Education
This presentation will outline the advantages adults have discovered that college coursework provides.

•*The Returning Adult to the College Classroom*
Denise Inman
Coordinator of Kinsley Outreach Center
This presentation highlights the advantages of becoming involved in the variety of learning opportunities offered by DCCC.

•*Student Financial Aid*
Anthony Lyons
Director of Financial Aid
All families need to be aware of financial costs and ways to seek information about financial aid for their students.

•*General Educational Development, Adult Basic Education, and English as a Second Language Programs*
Dennis Neil
Associate Dean of Instruction-Special Programs
A brief overview about these programs, and the roles they play in our community.

•*Friends Away From Home*
Jewell Perkins
Copy and Mail Center Manager
Community persons are being asked to be a friend to college students who live away from the home environment and are unfamiliar with Dodge City. This sponsor outlines the need of these students.

•*The College Role in Training and Retraining Automotive Repair Technicians*
Lyle Schrader
Professor of Auto Mechanics
The knowledge required to maintain computerized vehicles requires formal training that is best obtained in a community college setting.

•*Grants writing*
Sam Seybold
Director of Grants and Development
Presentations include information on preparing grant proposals, approach agencies, and management of grants once they are received. Highlighted are various program grants received by DCCC.

•*From Welfare to Work*
Jennifer Smidt
JTPA Assessment Grant (Job Placement) Coordinator
This presentation outlines the services DCCC provides through the Welfare to Work Grant and highlights the special needs of adult students as they juggle careers and parenting.

•*Residence Life*
Jim Utterback
Dean of Instructional Services
Modern concepts of student developmental programs in resident halls are discussed. The roles of the resident assistants, housing managers, and campus security are outlined. Specific programs at DCCC are presented.

•*Wholistic Education*
Jim Utterback
Dean of Instructional Services
Theories of student development emphasizing extracurricular education are presented. Activities programming for the "whole" person based on the Wellness Model is explained.

•*Minority Student Affairs*
Jim Utterback
Dean of Instructional Services
Data are presented to illustrate the current status of minority education. Specific problems relating to learning styles and cultural differences are presented.

Communication

•*Mini French Class*
Peggy Church
Director of Developmental Education and External Studies
Learn a few French conversational phrases from a former college French instructor.

•*Technical Communication*
John Husband
Associate Professor of English
Persons who are entering trade careers are finding the necessity for high reading levels for technical material. This presentation explains the changes in attitude regarding reading skills in today's work place.

Cultural Topics

•*Writing Lab*
John Husband
Associate Professor of English
The need for additional writing experiences will be emphasized.

•*No . . . Don't Cut the Rhetoric*
Jeff Merritt
Instructor of English
A discussion of the meanings of the term "rhetoric" and its relevance to modern society.

•*The Importance of Speech*
Diona Nace
Instructor of Journalism
The most common fear today is having to speak to large audiences, but effective speaking is a very strong communication tool that we all need at one time or another. This presenter covers topics such as speaking with confidence, speaking to persuade or how to influence with speech.

•Speech, Language, and Hearing
Wanda Waldman
Instructor of Sign Language
The use of modern technology for the hearing and language impaired person is discussed. Highlighted are adaptive computers which stimulate normal auditory development.

•The Ethics of Public Speaking vs. Everyday Communication
Greg White
Associate Professor of Speech and Drama
Since a large percentage of the population are fearful of public speaking, techniques about presentation and executing difficult topics is explained.

•Literature
John Husband
Associate Professor of English
The Poetry of Robert Frost

•Programming Patron Arts Groups
Sally Luallen
Director of Cultural Programs and Coordinator of Senior Employment
Developing community support for cultural growth needs to be shared by businesses and individuals alike.

•Art Topics
Christy Lynn Rezny
Visiting Artist
Our visiting artist can customize her presentation with topics such as art history or contemporary art and include demonstrations if desired.

•The Importance of the Arts in Education
Greg White
Associate Professor of Speech and Drama
An appreciation of the arts is learned and the need to keep them in the educational system is emphasized.

•Wheel-Thrown Ceramics and Hand-Built Sculpture
Jim Wilson
Professor of Art
Several techniques of working with clay are described with explanation of the aesthetics involved in each area.

Current World Events

•Analysis of Current Events in Eastern Europe and the Soviet Union
Larry Burke
Associate Professor of Social Science
What conditions currently exist in the Eastern European countries and the Soviet Union compared to several years ago.

•Military Operations in the U. S. Navy
Tom Gamble
President
Dr. Gamble is a 22-year veteran of the U.S. Navy, having retired in 1986 as a Captain. His naval experience included tours aboard ship (LST) on and off the beaches of the Dominican Republic and Vietnam, with both Atlantic and Pacific Fleet Commanders, with Recruit Training Command, and as U.S. Liaison Officer with NATO. Captain Gamble can speak to these experiences, U.S. Navy sea power and organization/command of U.S. Navy and Naval Reserve Forces.

•National Security in the 90s
Anthony Lyons
Director of Financial Aid
This presentation outlines the role of the armed forces in the security of the United States and its citizens and interests abroad.

Health

•Women's Health Issues
Becky Bredfeldt
Assistant Professor of Nursing
Areas of concern will include PMS, breast and cervical cancer, osteoporosis, and infertility.

•Life Fitness
Shari Campbell
Women's Head Volleyball Coach and Assistant Wellness Center Director
Techniques are suggested that will provide a routine in individuals lives that will not only help keep them physically and mentally alert, but also free from stress.

•AIDS
June Kliesen
Assistant Professor of Biology and Mathematics
A discussion of AIDS and your immune system. The talk can be tailored to the group.

•*Women and Addictions*
Sally Luallen
Director of Cultural Programs and Coordinator of Senior Employment
Problems of women and their addictions is beginning to surface throughout the country. All persons should be aware of the severity of this situation.

•*Drug Prevention*
Casey Malek
Head Golf Coach
Understanding drug prevention is crucial to the welfare of our country and this presentation tells what information young people need today to lead a life free of drugs.

•*Diabetes Awareness*
Harold Marconnette
Director of Center for Business and Industry
Living a full life is possible even for diabetics. This presenter shares with the audience the adjustments he had to make in order to maintain a "full life."

History

•*England from a Historical Viewpoint*
Larry Burke
Associate Professor of Social Science
A slide presentation of England that highlights the country's history and literature.

•*A Historical Account of the Civil War, the Korean War and the Vietnam Conflict*
Larry Burke
Associate Professor of Social Science
A review of these wars and their impact on the societies involved.

•*Women in Society*
Sally Luallen
Director of Cultural Programs and Coordinator of Senior Employment
Historically, women have played an important role in the building of countries. That same impact has continued through to the present day.

•*General Dwight D. Eisenhower*
Anthony Lyons
Director of Financial Aid
This presentation outlines the General's life and military career with emphasis on the influence his leadership had in shaping military and domestic policy today.

Hobbies

•*Everything You Wanted to Know About Amusement Parks But Didn't Think to Ask*
Jeff Merritt
Instructor of English
A presentation on the past and current history of amusement parks. During the presentation the speaker will be willing to discuss any specific topics which are of interest to the audience.

•*Primitive Riflesmithing As Art*
Bob Sheldon
Professor of English and Literature
The Pennsylvania-Kentucky Rifle has long been recognized as a splendid example of early American art. Aside from its romanticized link with the American past, it is an object of beauty, "a complex sculpture of three dimensional art with two dimensional art superimposed, made from beautiful wood in combination with iron, brass, silver, and ivory."

Miscellaneous

•*Sharing the Road with Trucks*
Dwight Craft
Assistant Professor of Truck Driving
All car drivers should know what to expect from the large trucks on today's highways. This presentation describes the problems of maneuvering large trucks and promotes safety techniques for car drivers who share the road with these "big rigs."

Science

•*The Fallacy of Exponential Growth*
Ron Albrecht
Professor of Chemistry and Physics
The disaster of continuous exponential growth in many factors of society such as populations.

•*Current "Hot" Topics in Physics or Chemistry*
Ron Albrecht
Professor of Chemistry and Physics
A customized presentation to describe current events in the physical sciences.

•*Tropical Marine Biology*
June Kliesen
Assistant Professor of Biology and Mathematics
Tropical marine biology of Bermuda with slides from The Burmuda Biological Station and representative tropical marine organisms.

Self-Improvement

•*Time Management*
Patricia Allison
Professor and Coordinator of the Secretarial Technology Program
People will be given tips for accomplishing more each day with the understanding of time management techniques.

•*Learn Your Strengths - Myers Briggs Personality Test*
Peggy Church
Director of Developmental Education and External Studies
This presentation explains how and where you get your energy, how you gather information, your decision process, and how these factors affect your life.

•*Optical Illusions*
Bev Helin
Professor of Cosmetology
Both men and women will benefit from the knowledge of hair styles that compliment face shapes.

•*Motivation*
Casey Malek
Head Golf Coach
Motivating others is the key to being a good leader and creating pleasant work and home environments.

•*Getting Motivated*
Brad Underwood
Head Men's Basketball Coach
A presentation that will make you feel good about yourself in home, work and play activities.

•*Positive Thinking and Positive Self-Esteem*
Jo Weinmeister
Associate Dean of Student Services, Registrar and Counselor
What it is, where you got it, and where you can get it.

•*Non-Verbal Communication*
Jo Weinmeister
Associate Dean of Student Services, Registrar and Counselor
Becoming more conscious of non-verbal communication signals.

Sociological Issues

•*Childhood Topics*
David Colburn
Director of Child Development Center
Presentations include recognizing childhood stress, strategies for disciplining children, the effect television has on children, or techniques for evaluating child care facilities.

•*Dual Career Families*
Tom Gamble
President
Dr. Gamble will speak to issues surrounding child rearing and marital bliss in a double-professional family.

•*The Changing Face of Education: The Challenge*
Betty Jackson
Professor of Education
The impact of increasing numbers of one-parent homes, poverty-level families, non-English speaking students and further specialized training for handicapped has created many financial, emotional and logistical problems in American education.

•*Gerontology*
Mary Koranda
Professor of Nursing
The sociological implications of a growing population of elderly will be analyzed and its impact on the future discussed.

•*Psychology*
Steve Rains
Instructor of Religion
This presentation can be customized to cover many aspects of psychology including areas such as history, philosophy, theory and counseling.

•*Religious Studies*
Steve Rains
Instructor of Religion
This presentation can be customized to cover many aspects of religious study including areas such as history, philosophy, theory and counseling.

•*Marriage and the Family*
Steve Rains
Instructor of Religion
The socio-religious aspect of the institution of marriage and family is presented. The structure of the family is discussed with reference made to what is considered "normal" and "abnormal."

•*Parenting Issues*
Sam Seybold
Director of Grants and Development
Schools today are often blamed for a student's lack of learning when the problem may actually stem from the parenting they have received. This is just one of the many issues discussed of which parents need to be aware.

•*Substance Abuse*
Bev Temaat
Substance Abuse Prevention Consultant
Special emphasis is placed on prevention of substance abuse through education, parenting and community programs.

Sports

•*Athletics: More Than Just a Game*
Kevin Blaskowski
Women's Head Basketball Coach and Director of Housing
There are a number of very important traits that are taught and learned through participation in athletics and these traits can be carried over and used in every day life.

•*Basketball Program*
Neil Elliott
Assistant Men's Basketball Coach and Director of Sports Information
Promotions that build support for basketball programs will be outlined relative to the short and long term goals.

•*Rodeo Competition and College Rodeo*
Beanie Harmon
Rodeo Coach
Maintaining a rodeo team to be competitive while also being safety conscious.

•*Dynamics of Successful Coaching*
Bones Nay
Director of Athletics
This presentation is based on the assumption that certain managerial and organizational practices produce better results. This program takes the entire athletic scope, breaks it down into four areas, and shares widely accepted principles of effective athletic management which will encourage and motivate the individual coach and total staff.

•*Martial Arts*
Eric Schminke
Instructor of Martial Arts
The history and applications of martial arts today.

•*Off-road Motor Sports*
Lyle Schrader
Professor of Auto Mechanics
Off road fun for people who enjoy the outdoors and motorized recreation.

•*Academics with Athletics*
Steve Simpson
Head Football Coach
It is important for college athletes to accomplish more than just being eligible to participate in a sport - they need to have career goals too.

•*The Game of Basketball*
Brad Underwood
Head Men's Basketball Coach
The presenter discusses several aspects of the game of basketball including play techniques and motivational strategies for the players.
